Rosehedge will scan and send all important information to SSC as it arrives.

3. Law & Policy Work Group

HB 3026 – Update. The SSC response to the new regulations/WACS is being finalized. Gabi will print and send the letter when next week. We are reacting to the many changes and push backs from the original document. School districts seem to be afraid of lawsuits. In reality, if the regulations were followed, there wouldn't be law suits. We are very concerned the current proposal from the districts and state will not protect kids and will be difficult to enforce. For more info, contact Jennifer. Allen@ppvotewa.org or Jmullins00@gmail.com

Gangs in Schools – Our concern is the laws proposed are punitive and do not deal with prevention.

School districts blocking LGBT specific sites – It has come to our attention that some school districts are blocking LGBT websites which means student can not access them at school. For students without computer access elsewhere or needing help immediately this makes it difficult to get information.

4. Peer Education Project and LGBT youth work in Skagit County – This will be re-scheduled. Colleen Conner, Prevention & Education Coordinator, Skagit County Svcs. Domestic Violence and Sexual Assault will make a presentation.

5. Intervention Team Report

This month we had 12 calls come in through the KCSARC crisis line.

We also had 4 calls from out of state:

- a. Louisiana – A school employee of a student coming out as gay requested help.
- b. Texas – We had a request for a book list on LGBT issues.
- c. Virginia – 12 girls bullying other high school girls. Parent requested suggestions on how to get the school more accountable and put more effort into stopping the bullying. Her daughter was beginning to show signs of the stress to include lower grades and depression.
- d. Minnesota – A request for information on stopping cyber bullying

In state cases:

- a. 16 yr. old tried to commit suicide due to bullying and was waiting in a mental health facility until a safe school environment could be assured. We worked with OEO on this one and they were a great help with the legal ramifications.
- b. A middle school child was expelled from a religious private school for fighting. The child was reacting to bullying which had been reported to the principal. We are working to get all the documentation so charges can be disputed. The student is now enrolled in the local school and is getting counseling. This is an on-going case.

8. SSC is benefactor of Delta Lambda Phi Inclement Sprint fundraiser. Thank you so much for your support.
9. Retroactive diplomas for bullied LGBTQ students – The question was brought to us about trying to get retroactive diplomas for students who were bullied in high school causing them to quit and/or not get a diploma. A student in this situation who has since gone on to be an attorney may request our help. One suggestion was to document the process to help other districts also offer this service.
10. OUTLoud - Heather C.
Alerted us to an event hosted by Jason Hunke to educate folks about YSPP. To support and RSVP go to www.yspp.org
11. Brianna will be representing the SSC on a webinar presented by the Spokane LGBT Center on Saturday. They are expecting over 200 participants who will get information on Pflag, SSC, domestic violence issues and community resources. Due to potential weather conditions, Brianna will testify via webcam. Carol Ehrhart, who is also an intervention specialist in Spokane along with her leadership role with the Center, also spoke with Sen. Cantwell last week to help identify LGBT issues in that area of the state.
